Put The Fire Out! What I saw today was an AMAZING display of comradery and unity. Various sectors coming together to fight and conquer a common challenge. I want to personally thank Rural Metro, Dynamite Water, and the Dirt Pro guy.

THANK YOU!

What I also saw today is what potentially can happen in a delayed response. My drivers and I could have been there at least 15 minutes quicker had we not been notified via smoke signal. I thought that method of communication fell out of style long ago.

We put 6,000 gallons on the Aloe Vera Fire, and we put 26,000 gallons on this one. 15 minutes is an eternity in our dry desert.

A solution will be found.

I live in Rio and knew from this posting that a fire was nearby. I cannot thank you, and all the others that you mentioned. I lived in the Oakland Hills during that fire and the outcome can be horrific. If you allowed anything NOT to happen, you are a hero for all of us that live on this land. Thank you.

I too want to thank you for quick response and fast work. It was close enough to watch from my roof.

Hopefully we can do better in notification if we have another one. Can you give us a number/method where we can improve the response time? What should we do?

It upsets me terribly to see people posting not only incorrect info but using a public forum to bash those who just saved their houses from going up in flames. John (Rio Verde Water) is not reimbursed for his efforts, or for the water he uses, or the employees he's paying to help save our community - this comes out of his and Doreen's pocket. When I questioned him he said to me "it's not about the money, I do it for the community because it's the right thing to do." This, in my mind, makes him the ultimate hero. CUDOS to you!

Great ideal I'm out of state right now but wow, that is a worthy cause. If you go to GoFundMe.com it walks you through the steps. I think many of us would like to show our appreciation and pitch in to reimburse them.

Rural Metro, Rio Verde Water, Dynamite Water, Scottsdale National Golf Club... not sure who else but there were other responders. It truly was a united community effort!!! Thank you ALL

Pat Quart Insurance would donate to the water companies. They use their own resources to fight these fires. And have been doing so for many years

Let us know if a fund is started for the water companies who are the heroes each time they are called. We'd be happy to contribute. I'd actually like to see some way for them to be reimbursed by the towns they protect as are other resources. This would be more consistent than hoping for people to donate. It's only right!
